

Mobile Workforce  
Management

TRACK AND  
OPERATE YOUR  
SALES FORCE  
WITH YOUR  
MOBILE

**Available on:**

The business Mobile App. For Tracking and Assigning missions to your “work force”

How it works?

“Mobile Work Force Management” is installed on the android-based mobile phones of your work force and you assign missions and track the progress of each mission on “Google Maps” and obtain exact location information for each of your work force.

- **Mapping:** Visibility into employee location, view employee routes and display info for every checkpoint.
- **Messaging:** Direct Communication between Supervisors and their team.
- **Reporting:** Generation of daily/ weekly/ monthly location and time reports.
- **Follow up:** Employee's mobile functionality (GPS status, battery status, network type).
- **Enhanced on-site decision making:** More qualified work assignments.
- **Save Time and Money:** Optimize your route to cut down traveling expenses, and increase the productivity of your mobile workforce
- **Get Started in Just Minutes:** Easily found on Google store.
- **Time Tracking:** Manage time per checkpoint per employee and time between multiple checkpoints.
- **Carrier Independent:** Mobile Workforce Management works on any carrier (Zain, Viva, Etisalat, etc.), so you are free to choose a single or multiple providers.
